1. 18 to 20 transport aircraft landed every day since early in April at Parchim airfield, and took off immediately after unloading. No information on the load has been obtained. 25X1
2. As previously reported, Parchim airfield is still occupied by a unit equipped with MiG-15 aircraft.

Comment:

25X1

The landing of transports at Parchim has so far not been confirmed. As there has not been such extensive flying by transport aircraft stationed in East Germany, it is assumed that the planes may have come from outside the Soviet Zone.
